Packaging Machinery and Equipment from CANADA

The purpose of this publication is to provide a comprehensive source listing of Canadian manufacturers who build packaging machinery. Machine descriptions are intended to serve as indicators of the company area of interest in the packaging field and should not be construed as necessarily representing its complete manufacturing capability.

Canadian companies are relatively new to the packaging industry; one third of them are less than ten years old. They have recognized the problem of competing with older, well established United States and European companies and have attacked it with zeal and imagination. In consequence, Canadian machines have innovative features which make them particularly attractive to the markets at which they are aimed.

Many of these Canadian companies have already gained wide acceptance for their products on the North American continent. They are eager to find new markets and inquiries are invited for both established products and custom designed machines in their field.

Let a Canadian manufacturer solve
YOUR packaging problem!

CANNERS MACHINERY LIMITED

Wellington Heights
P.O. Box 190
Simcoe, Ontario, Canada
Tel: (519) 426-0310

L. H. Johnston, President

Contact: G. R. Munn, Manager

Hand Pack Filler — Used in small canneries to fill cans or bottles with vegetables and fruits.

Established — 1923.

Export — No restrictions.

CO-MATIC INC.

P.O. Box 340
Ste. Claire, Co. Dorchester, Quebec, Canada
Tel: (418) 883-3327

G. Cote, President

Contact: J. A. Landry, General Sales Manager

Plastic Blow Moulding Machine — Will mould plastic bottles up to six ounces automatically with no flash or reaming at the rate of 12 per minute. Any resin except PVC.

Plastic Blow Moulding Machine — For bottles any shape to one gallon. Finished product requires flash removal and reaming at the rate of 650 per hour (export not permitted).

Moulds for above machines as required.

Established — 1964.

Export — No restrictions on machine for six-ounce bottles.

CUSTOM DIEMAKERS LIMITED

447 Birchmount Road
Scarborough, Ontario, Canada
Tel: (416) 698-5634

Contact: B. Stremos, President

Vacuum Packaging Machine — Prefilled plastic pouches are loaded on the machine, a vacuum is drawn and the pouch impulse sealed at rates up to seven per minute. It has been used by small meat and cheese packers.

Established — 1957.

Export — no restrictions.

DELAMERE & WILLIAMS COMPANY LIMITED

Division of Pneumatic Scale Corporation
35 Carson Street
Toronto 14, Ontario, Canada
Tel: (416) 259-7674

H. S. Stevenson, Vice-President and General Manager

Contact: B. R. Markell, Vice-President, Sales

Liquid Filler — For bottles, straight line volumetric, 12 head max., one ounce to one gallon to 50 per minute (e.g. liquid waxes). Not for carbonated liquids or milk products.

Volumetric Filler — For powders, pellets or granular products to 300 containers per minute.

Continuous Motion Packager — Forms, fills and closes cartons to 400 per minute (e.g. soap flakes).

Pouch Machine — Forms pouch from heat-sealable materials, fills and seals. Continuous motion machine maximum pouch size $3\frac{3}{4}'' \times 5\frac{1}{2}''$ at rates to 400 per minute. Intermittent motion maximum pouch size $5'' \times 8''$ at rates to 200 per minute. Companion carton-ing machine available.

Tea Bag Machine — Manufactures and fills tea bags to 400 per minute.

Blow Moulding Machine — Produces plastic bottles in any shape up to gallon size. Gallons produced at 200 to 300 per hour.

Bottle Rinser — Washes glass bottles with hot water and steam at speeds to 60 per minute.

Established — 1919.

Export — no restrictions.

EDSON MACHINERY LIMITED

P.O. Box 4057, Station D
1308 Rymal Road East
Hamilton 53, Ontario, Canada
Tel: (416) 385-3201

**Contact: E. F. McCrudden, President and
General Manager**

Case Erectors, Case Packers, Case Sealers — Air-operated, using corrugated cardboard. Case sizes up to 32" x 40" x 24".

Established — 1962.

Export — no restrictions.

GENERAL PLASTICS COMPANY LIMITED

Bibeau Street
Cookshire, Quebec, Canada
Tel: (819) 875-3343

H. A. J. Cumming, President

Contact: Robert L. Calder, Executive Vice-President

Fish Packaging System — Packages 20 pounds of fresh fish fillets in a tray with heat-sealed polyethylene membrane cover. Three trays packed in master carton. Allows odour-free shipping and marked increase in length of product freshness.

Established — 1964.

Export — No restrictions.

GLOLOK CO. LTD.

4755 Boulevard des Grandes Prairies
St. Leonard, Montreal 457, Quebec, Canada
Tel: (514) 323-4510

Contact: A. Lipes, President

Carton Former — Erects a lock-style carton from flat blank of light cardboard and places it on a conveyor to be filled with product. Rates from 20 to 100 per minute. Maximum carton size 12" x 8¹/₂" x 33".

Carton Sealer — Applies a hot melt adhesive and closes and seals a carton which has been filled with product. Rates to 250 per minute.

Both items have been used in baked goods and confectionery industries.

Milk Pouch Packers — Milk pouches indexed into groups of three which are then dropped into outer bag opened by the machine and from there ejected into a fully automatic closing unit.

Established — 1964.

Export — Licensee in Europe and United States.

THE J. A. GOSSELIN COMPANY LIMITED

P.O. Box 280
Drummondville, Quebec, Canada
Tel: (819) 472-3339

R. R. McLernon, President

Contact: G. P. Lemay, General Manager

Milk Pouch Bagger — Packages three one-quart pouches of milk into one plastic bag, complete with carrying handle. This outer bag is heat-sealed.

Established — 1902.

Export — No restrictions.

GRISWOLD CORPORATION (1961) LIMITED

8355 Montview Road
Montreal 30, Quebec, Canada
Tel: (514) 739-6336

F. D. Quinn, Vice-President

Contact: A. Siddall, General Manager

Case Loader and Sealer — Shapes scored and slitted cardboard blanks around the product load to form a container. Has been used for canned goods and flat frozen food packages (TV dinners). Up to 30 per minute.

Bundle Packager — Uses Kraft paper to wrap a group of packages together under compression. 15 per minute.

Established — 1961.

Export — No restrictions.

IDEAL EQUIPMENT CO. LTD.

4859 St. Lawrence Boulevard
Montreal 14, Quebec, Canada
Tel: (514) 845-1175

Contact: M. R. Katz, President

L-Sealer — For encapsulating packages in plastic film to 40" x 40" x 8".

Sleeve Wrapping Machine — Wraps package with open-ended plastic sleeve to 30" x 30" x 12".

Shrink Tunnel — To shrink plastic film wrapper to tight fit on package. Accepts packages 20" wide 13" high.

Band Shrink Tunnel — Shrinks plastic band over screw cap, e.g. pharmaceutical bottles.

Automatic Packager — Holds plastic bag open for automatic insertion of product. Manual also available.

Drop Sealer — Accepts filled plastic bag and automatically seals it. Rates to 2,000 per hour.

Bag Sealer — Pedal operated to 30" wide.

Established — 1952.

Export — No restrictions.

H. G. KALISH CO. LTD.

1285 Hodge Street
Montreal 379, Quebec, Canada
Tel: (514) 747-0671

H. G. Kalish, President

Contact: F. Z. Salama, Sales Manager

Liquid Filler — Precision filling of glass or plastic bottles. Four heads up to 520 cc. per head. Rates up to 148 per minute.

Paste, Cream or Liquid Filler — Single head fills tubes, jars or bottles $\frac{1}{8}$ to 8 ounces, 12 to 20 fills per minute.
